To Whom It May Concern,

We are extremely satisfied with CHS Training.

In March this year we successfully opened up our new 1200sq m IGA Supermarket at Evans Head with over fifty (50) employees.

We had engaged CHS Training to completely co-ordinate the recruitment and training of all staff. They handled from the initial advertising through to the two (2) days of intensive training in Food Safety and Customer Service. It did not just end there with CHS Training providing a reserve staff eligibility list and personal follow-up on how staff were settling into their respective positions.

Due to the very high standard of training, our staff were able to more easily 'hit the ground running'. Their recently learnt knowledge and qualifications certainly helped instil that extra confidence needed in that initial period.

You would no doubt agree, that staffing from scratch of a complete supermarket with Deli staff, Butchers, Produce personnel, Grocery and key Managers, is of absolute vital importance and certainly not an easy task. Well CHS Training handled it excellently.

We actually still thank them every time we see them. A very professional effort and they have our highest recommendation.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Wally George', with a long horizontal flourish extending to the right.

Wally George
